## EXPERIENCE

### **Broadway Infotech** – SWE Intern

June 2019 – November 2019

My responsibilities included:

- Writing/debugging systems in the backend for Broadway's ticketing platform in C#
- Cloud storage management in PHP and Python
- Payment gateway integration and TLS security

## PROJECTS

### **UC Berkeley CS 162 (Pintos)**

Full implementation of a POSIX-compliant operating system in C. Includes:

- Support for user-defined programs
- Multithreading and thread scheduling
- Berkeley FFS-based file system

### **Posse**

Full-stack web app for creating, managing, and interacting with groups. Stack:

- Database: MongoDB
- Backend: Node.js, Express.js
- Frontend: Bootstrap, JavaScript ES6

## EDUCATION

### **University of California, Los Angeles (UCLA)**

Bachelor of Science, Computer Science and Engineering

September 2017 – Present

## CERTIFICATIONS

- [MIT](#) ([Data Science](#))
- [Stanford](#) ([Mining Massive Datasets](#))
- [Stanford](#) ([Automata & Complexity](#))
